

Vela ECO-DM6E

Independent Working Station Drilling Machine

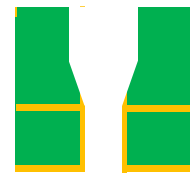

Drilling Process solutions: Camera alignment & Depth Control

Processed products : Micro hole diameter & Back Drill & Blind Hole

- Processing size: 560 * 772mm(22"*30")
- Number of table: 6 Station Table
- Spindle Speed : 200 Krpm / 300 Krpm / 350Krpm
- Processed material: Glass Fiber,Aluminum,Copper,Ceramic,Acrylic

Blind Via
Accuracy range: $\pm 12 \mu m$

Back Drill Via
Accuracy range : $\pm 50 \mu m$

High precision Back drilling

【Specification】 T/H Diameter : $\phi 0.50mm$
Back Drill Diameter : $\phi 0.70mm$

《Plate T: 1.6 t》
